# 1. What is WellnessRocket?

WellnessRocket is a next-generation sports betting platform, designed to overcome common issues in the industry while delivering a diverse and exciting user experience. Our platform offers an extensive array of betting options, ensuring users always have engaging choices that keep the experience fresh.

## Addressing Industry Pain Points

**Transaction speed** is one of the most significant issues in the online betting space. Users frequently encounter delays when placing bets or withdrawing winnings, creating frustration and disrupting the enjoyment of the platform. WellnessRocket has prioritized speed and efficiency to eliminate these delays, using a cutting-edge blockchain solution to support a seamless betting experience.

## The Power of the Solana Network

To deliver industry-leading performance, WellnessRocket leverages the **Solana blockchain**. Known for its exceptional transaction speeds and cost-effectiveness, Solana enables our platform to process up to **50,000 transactions per second (TPS)**. In comparison:

- **BNB Chain** achieves around 1,750 TPS.
- **Ethereum** averages only about 15 TPS.

Solana's speed advantage translates to an almost instantaneous betting experience, with virtually no delays for users. By prioritizing a network with such high throughput, WellnessRocket ensures that our users will experience smooth, uninterrupted access to all betting services.

## Minimal to Zero Fees

High fees are another challenge faced by betting enthusiasts on many platforms. With Solana's efficiency, WellnessRocket can offer a **zero-fee structure for transactions up to \$100,000**, making it more affordable for users to place bets and withdraw winnings. For transactions above \$100,000, fees are minimal, ranging between 0.1% and 0.5%. Deposits are always free, supporting a wide variety of currencies for user convenience (see Section 10, "Betting Site Currencies"). Withdrawals are available in **SOL and WRO tokens** only, further streamlining the transaction process for our users.

## Annual Christmas Lottery: Building Community and Excitement

Beyond standard betting, WellnessRocket values community and offers users the chance to participate in an **annual Christmas Lottery**. Each December, we host a lottery draw with a prize pool of up to **\$50,000**. This event is our way of giving back to our community and fostering a sense of celebration and excitement.

**Automatic Entry**

All users who have used the WellnessRocket platform over the past year are automatically entered into the lottery. Additional tickets are also available for purchase, providing an option for users who wish to increase their odds.

**Transparency and Accessibility**

To ensure transparency, the draw will be broadcast live on our website. For users who cannot attend, a recorded video of the draw will be made available for replay. This approach emphasizes our commitment to openness and allows users to experience the event firsthand.

WellnessRocket aims to redefine what users can expect from an online sports betting platform through this combination of innovative technology, zero-fee transactions, and community-focused events. Our goal is to create a fast, affordable, and engaging environment that addresses common industry frustrations and continuously enhances the user experience.

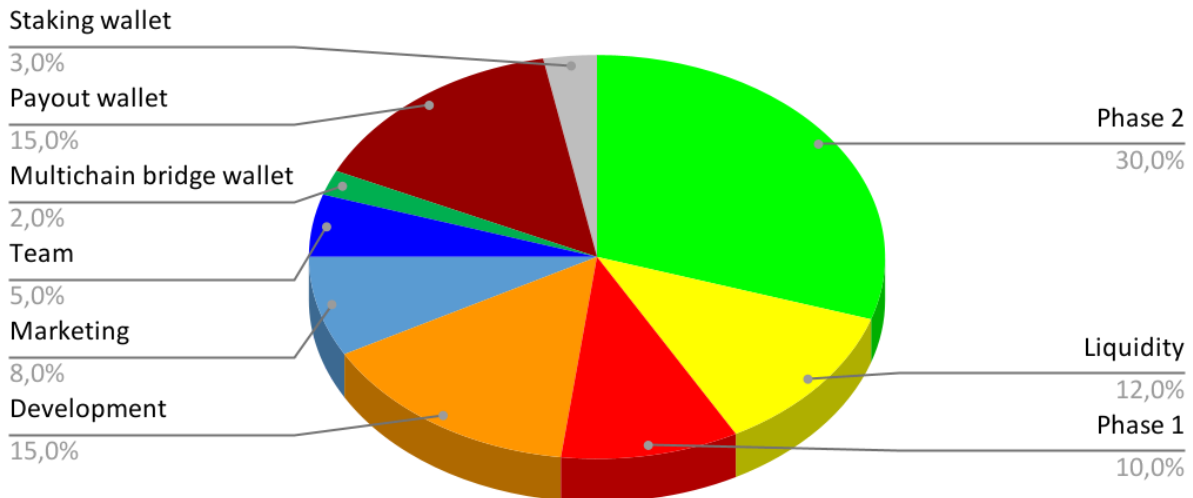

## 2. Token

- **Token Name:** WellnessRocket
- **Symbol:** WRO
- **Supply:** 840,000,000 WRO
- **Chain:** SOLANA (additional support planned for ETH and BNB chains; see "Development" section)

### Tokens' Distribution

- **10%** for Phase 1
- **30%** for Phase 2
- **12%** for Liquidity
- **5%** for Team (locked for 1 year)
- **8%** for Marketing (locked for 6 months)
- **15%** for Development (locked for 3 months)
- **15%** for Payouts
- **3%** for Staking
- **2%** for Multichain bridge

### Tokens' Distribution

For further details on token pricing and liquidity strategies, refer to sections 3, 4, and 5.

# 3. Token Price Strategy

To ensure long-term stability and investor confidence, WellnessRocket will implement a structured token lock strategy and reward system. The following measures are designed to maintain token value, prevent rapid sell-offs, and reward users for long-term holding.

## 1. Locking Periods for Team, Marketing, and Development Tokens

- **Team Tokens:** All team-held tokens will be locked for a minimum of 1 year. After this period, only a limited percentage will be released gradually to ensure a steady token supply and minimize market impact. This approach guarantees that team members cannot flood the market with a large volume of tokens after the lock period, thereby preserving price stability.
- **Marketing Tokens:** Marketing funds, used to promote the platform, will be locked for 6 months. Upon release, only a specific portion will be available for use at regular intervals. This strategy ensures that funds are used sustainably over time, aligning marketing activities with platform growth.
- **Development Tokens:** Development tokens will be locked for 3 months to ensure that funds for site improvements, expansion, and technical advancements are available when needed. Post-lock, a small portion of tokens will be released monthly, maintaining ongoing support for platform innovation without compromising token stability.

## 2. Liquidity Lock

Liquidity is crucial for a stable token price and secure trading. WellnessRocket will lock its liquidity pool for 5 years, ensuring that investors have the assurance of consistent liquidity and minimized price manipulation.

## 3. Post-Lock Period Token Usage

All tokens, whether from team, marketing, or development pools, are planned to be used conservatively. If possible, these wallets will remain untouched; in such cases, we intend to **burn** unused tokens over time, permanently removing them from circulation to increase scarcity and drive long-term value appreciation.

## 4. Transparency and Secure Locking Protocols

To provide full transparency, token locking and vesting schedules will be publicly viewable on the blockchain, allowing investors to verify lock status and release schedules independently. All locks will be implemented before the platform goes live to assure investors that team members

cannot access tokens prematurely.

## 5. Long-Term Burn Strategy

The WellnessRocket platform is designed to increase token value over time. As the betting platform grows and reaches profitability, we plan to implement regular token burns, further decreasing the circulating supply and enhancing the value of remaining tokens. Our goal is continuously improving the ecosystem, ensuring long-term gains for loyal holders while maintaining token scarcity.

---

## Rewards for Long-Term Holders

To incentivize stability and reward committed users, WellnessRocket has established a unique reward system:

- **Holding Rewards:** Users who maintain a specified minimum amount of WRO tokens for at least one month will be eligible for a approximately **10% SOL reward** based on their WRO holdings. This reward structure promotes loyalty and stability by encouraging users to hold their tokens for extended periods.
- **Tiered Rewards by Phase:**
  - **Phase 1 and Phase 2 Investors:** Investors from the early phases (angel and public sale) are eligible for a **1.3x reward multiplier**. This additional incentive is designed to acknowledge the early support of foundational investors.
  - **Phase 3 Investors:** Holders who enter during the live phase (Phase 3) will receive the standard **1x reward rate** for holding WRO tokens.

## 6. Continuous Reward Availability

The rewards program will run for one year following the live launch (Phase 3), with users eligible for monthly awards if they meet the one-month holding criteria. Any break in the holding period, even by one day, will disqualify the user from rewards for this month, incentivizing consistent holding.

## 7. Staking program

### Staking Program: Earn WRO by Holding WRO

To incentivize long-term holding and provide additional earning opportunities for our community, WellnessRocket will launch a **staking program** 2–4 weeks after the **Phase 3 live launch**. This program is designed to reward participants while maintaining a strong token price.

Read more from Section **8. Staking program**

---

With these strategies, WellnessRocket aims to maintain a stable, upward price trajectory by combining careful fund management, rewards for dedicated holders, and a rigorous approach to token burns.

## 4. Phase 1: Angel Investors

In **Phase 1**, WellnessRocket is offering **84,000,000 WRO tokens** at a price of **0.0011905\$ per token**. This phase is reserved for **angel investors** who recognize the platform's potential and are willing to support its foundational development. Angel investors in this phase are crucial in bringing the project to life and will be rewarded with exclusive benefits as a token of our appreciation for their early support.

### Key Details and Benefits for Phase 1 Investors

- **Exclusive "Angel Investor" Status**

Investors in Phase 1 are granted the title of "angel investors", which gives them privileged access to benefits not available to later-phase investors. This title recognizes their early contribution and signals their vital role in launching the WellnessRocket platform.
- **Long-Term Rewards for Holding**

Phase 1 investors who retain their WRO tokens for at least **6 months** without selling are eligible for **substantial rewards** as a thank-you for their commitment. These rewards are designed to incentivize holding and support token stability by reducing circulation during the platform's initial growth phase.

  - **Reward Structure:** If investors maintain their holdings for the 6-month duration, they will receive a **significant reward in SOL tokens**, equivalent to a calculated portion of their WRO holdings.
  - **Guaranteed Value:** WellnessRocket has designed a structured plan to ensure that every Phase 1 investor holding tokens for 6 months receives a **guaranteed reward in SOL**. The specific amount will be based on the 84,000,000 tokens allocated for this phase and the total holdings retained by qualifying investors.
- **Planned Award Distribution**

Rewards in SOL will be **distributed directly to eligible investors** after the 6-month holding period, making it straightforward for investors to claim their benefits. This approach reflects WellnessRocket's commitment to transparency and ensures that early supporters receive clear, tangible rewards for their loyalty.
- **Incentive for Strategic Holding**

By rewarding angel investors who hold their tokens, WellnessRocket aims to establish a stable token foundation. This approach not only minimizes short-term market volatility but also strengthens investor confidence in the platform's long-term vision.
- **Exclusive Investor Updates**

As a further benefit, Phase 1 angel investors will receive priority updates on platform developments, upcoming features, and early access opportunities. They will have a direct line to the team, including opportunities to participate at least once in a month in investor calls and feedback sessions. This enables Phase 1 investors to be active contributors to the platform's growth journey.

This carefully structured investment opportunity in Phase 1 is designed to benefit both the platform and its earliest supporters, providing a solid foundation for the project and rewarding those who believe in WellnessRocket's long-term potential.

## 5. Phase 2: Public Sale

In **Phase 2**, WellnessRocket will offer **252,000,000 WRO tokens** at a price of **0.0037698\$ per token**. This phase opens the door to a broader range of investors, welcoming the public to join the project at an early stage. This public sale phase is essential for scaling the platform, as it fuels liquidity, platform growth, and community engagement.

### Key Details and Benefits for Phase 2 Investors

- **Token Allocation for Market Liquidity**
  - Phase 2 funds will primarily be directed toward enhancing **DEX (Decentralized Exchange) liquidity**, with approximately **\$600,000** allocated to this purpose. This capital infusion will strengthen the liquidity pool, supporting healthy trading volumes and enabling more seamless transactions for all WRO holders.
  - Building liquidity early in the project's lifecycle is crucial to establishing price stability and ensuring that users can trade WRO tokens with minimal slippage. With ample liquidity, the platform becomes more resilient to market fluctuations, creating a more secure environment for investors.
- **Public Access with Early-Stage Benefits**
  - Phase 2 provides investors with the chance to acquire WRO at an early stage but at a slightly higher price than Phase 1. This positions Phase 2 participants to benefit from potential price growth as the platform gains traction and expands.
  - Given the platform's planned development and growth strategies, investors in this phase still receive early entry pricing, allowing them to join the WellnessRocket ecosystem with substantial upside potential.
- **Strengthening the Investor Community**
  - The public sale in Phase 2 marks an important milestone by expanding the WellnessRocket community. This broader base of investors provides financial support and increased visibility and credibility for the platform, drawing new users and furthering adoption.
  - By increasing the number of stakeholders, Phase 2 builds a more vibrant, engaged community, with participants likely to advocate for the platform and contribute to its growth.
- **Focused Resource Allocation**
  - In addition to the approximately \$600,000 allocated to liquidity, Phase 2 funds will be judiciously used to support platform stability, development, and initial marketing campaigns. These resources are intended to ensure the

platform's infrastructure and user experience are solidly in place as we prepare for Phase 3.

- **Transparent Fund Management**

- The Phase 2 sale will operate transparently, with a clear allocation of funds to liquidity, marketing, and platform upgrades. Regular updates will be provided to investors, detailing progress and the impact of their investment, building trust in the platform's direction and the team's commitment to transparency.

By providing these early-stage benefits, dedicated liquidity allocation, and strategic community expansion, Phase 2 plays a critical role in the WellnessRocket journey, establishing the financial and community foundations necessary for long-term success.

- **Phase 2 Structure and CoinPayments Integration**

**Phase 2** will start immediately after Phase 1 closes and will be conducted through **CoinPayments** to streamline the purchase process. This integration allows for easy access to WRO tokens, and using CoinPayments ensures a secure and user-friendly transaction experience. Phase 2 will support various currencies, making it convenient for investors to join from different networks.

### **Allocation of Phase 2 Funds**

To maximize impact and drive sustainable growth, Phase 2 funds will be allocated as follows:

1. **Liquidity (70%)**

- A substantial portion of the funds will be directed to building liquidity, ensuring smooth transactions and a stable trading environment as we go live. This allocation supports price stability and allows for sufficient trading depth to accommodate high-volume trading.

2. **Lottery Fund (10%)**

- **Exciting Launch Lottery:** The platform will host a launch lottery within **2 hours after Phase 2 closes**, with live broadcasting on our Telegram channel. This event, which offers prizes up to **100 000\$**, is open to all Phase 1 and Phase 2 participants, making it a thrilling way to celebrate the launch and encourage community engagement.
- **Transparent and Re-watchable Draw:** The lottery will be live-streamed on

Telegram, recorded, and available for replay. This transparent approach reinforces community trust and showcases our commitment to openness.

3. **Marketing (5%)**

- A targeted marketing fund will support a major campaign immediately after Phase 2. This campaign is strategically timed to build momentum and attract new users as we prepare for public trading. Marketing efforts will include partnerships, ads, influencer endorsements, and community incentives to maximize reach.

4. **Development (15%)**

- A dedicated portion of Phase 2 funds will be directed toward further development and enhancement of the platform, including UI improvements, user experience optimization, and future network integrations. This fund ensures that WellnessRocket's platform remains competitive, scalable, and user-friendly.

## 6. Phase 3: LIVE

Phase 3 marks the official launch of **WellnessRocket (WRO)** on the open market, making the token publicly accessible on decentralized exchanges (DEXs). This phase is critical as it finalizes our early-stage development and prepares for active trading and broader community engagement.

### Key Elements of Phase 3 Launch

- **Exchange Selection and Community Input**

Phase 3 will launch WRO on either **Birdeye** or **Radyum**, two established decentralized exchanges on the Solana network. The final choice of DEX will be made with direct input from Phase 1 and Phase 2 investors through live discussions in our Telegram community. This voting process emphasizes our commitment to investor participation, allowing all early investors to play an active role in the platform's foundational decisions.

- **Liquidity Injection and Token Price**

- At launch, **100,800,000 WRO** tokens will be paired with an approximately **\$600,000 liquidity pool**, creating the stability needed for trading and ensuring smooth buy/sell transactions.
- The initial token price at launch is set at **\$0.0065972 per WRO**, representing a fair market entry point while reflecting the platform's growth potential. This setup aims to provide Phase 3 buyers with an attractive entry price as the token becomes publicly available.

- **Cross-Chain Compatibility (Future)**

WellnessRocket plans to expand the WRO token's availability to **Binance Smart Chain (BNB)** and **Ethereum (ETH)** networks in the future. This cross-chain compatibility will enhance accessibility, allowing investors in these popular chains to participate in the WellnessRocket ecosystem.

- **Equal Allocation on Other Networks:** When WRO becomes available on BNB and ETH, token holders will receive an equal amount of WRO on these networks, ensuring consistency across chains. This approach minimizes barriers to entry and encourages adoption across the broader crypto ecosystem.
- A **dedicated multichain bridge wallet with 16,800,000 WRO tokens** has been allocated to facilitate seamless chain bridging. This ensures consistent supply across networks and enhances accessibility for users across ecosystems.

### Public Launch Timing and Communication

- **Launch Timeline**

Phase 3 will go live on the chosen DEX (Birdeye or Radium) within **48 hours after Phase 2 concludes**. The exact launch time will be announced to all Phase 1 and Phase 2 investors at least **12 hours in advance**, ensuring transparency and allowing ample preparation time for all participants.

With Phase 3, WellnessRocket enters the open market, enabling broader participation and paving the way for the platform's future growth. Through active community involvement, transparent processes, and strategic resource allocation, Phase 3 is set to provide a robust foundation for WellnessRocket's long-term success.

## 7. Lottery Draw

As a special event to celebrate the conclusion of Phase 2, WellnessRocket will host an exciting **Lottery Draw** within **12–24 hours after all Phase 2 tokens are sold out**. This event will feature an incredible lineup of prizes, including a brand-new car and other fantastic rewards.

## Prizes

1. **Grand Prize: Ford Mustang 2024 5.0L**
  - A sleek and powerful sports car, the **Ford Mustang 2024 5.0L** combines performance, style, and cutting-edge technology. Known for its roaring V8 engine and iconic design, this car is the perfect blend of luxury and speed.
  - **Video Preview:** Check out the car on the front page of our website for a detailed look!
  - **Flexible Option:** Would you prefer crypto instead? Choose the equivalent value in **SOL** or **BNB**.
  - **Shipping and Extras:** All shipping costs and related fees will be covered by us. Whether possible, we'll purchase the car from a local dealer in your area to reduce shipping time and costs.
  - **Bonus Gift:** We'll also provide **\$5,000** for gas and travel expenses so you can take your new car on an unforgettable road trip.
2. **Second Prize: \$2,500**
  - Winners can choose to receive **\$2,500** in cash or crypto (**SOL/BNB**).
3. **Third Prize: \$1,200 (2 Winners)**
  - Two lucky winners will receive **\$1,200** each, payable in cash or crypto (**SOL/BNB**).
4. **Fourth Prize: PlayStation 5 Slim (3 Winners)**
  - Each winner will receive a **PlayStation 5 Slim, Disc Edition (1TB)**. This gaming package includes:
    - **2 white controllers**
    - **2 games of your choice** (any price range)
  - **Shipping:** We'll cover all shipping costs. If possible, we'll purchase the console from a local store to minimize shipping time and costs.
5. **Fifth Prize: Motorola Moto G84 5G (5 Winners)**
  - Winners will receive a **Motorola Moto G84 5G smartphone**, featuring:
    - **6.5" P-OLED Display**
    - **256GB storage**
    - **12GB RAM**
    - **Dual SIM capability**
  - **Shipping:** As with all prizes, we'll cover the shipping costs and aim to buy the product locally when feasible.

### Special Bonus: Retweet and Get Whitelisted

If you've retweeted our **X (formerly Twitter)** post, you are eligible for additional rewards and will get **1 free lottery ticket!** Here's what you need to do:

1. **Enter Your Details:**

Provide your X username and wallet address in the designated form [on our website](#).

2. **Exclusive Benefits:**

- You will be **whitelisted for future events**, ensuring priority access to upcoming promotions and giveaways.
- You will receive **1 lottery ticket** for every **\$100 worth of WRO tokens** you purchase during the Phase 1 and Phase 2 sale. This allows you to participate in our exciting Car Lottery Draw with extra tickets, as each ticket significantly increases your chances of winning.

3. **Follow-Up Contact:**

- If you provide your **email address**, we will contact you directly via email.
- Otherwise, we'll reach out to you through your X account.

4. **Ask Questions Page:**

Don't forget to visit the [Ask Questions](#) page after completing the above steps to clarify any doubts and ensure you don't miss out on any opportunities.

### Free ticket from Phase 1

Everyone who buys from Phase 1 at least 100\$ worth of WRO , will get one free extra ticket for lottery!

### Live Lottery Draw Details

● **When and Where:**

**12–24 hours after all Phase 2 tokens are sold out** and lottery draw will be broadcast **LIVE on Telegram**, where everyone can watch the event in real-time.

● **Did you miss the Live Event?**

Don't worry! The entire draw will be recorded and made available on our website so you can replay it at your convenience.

This lottery is our way of celebrating with the community and thanking all participants for their support. Take part in this exciting event, retweet our post for additional benefits, and join us as we prepare for an incredible launch!

## 8. Staking Program

## Staking Program: Earn WRO by Holding WRO

To incentivize long-term holding and provide additional earning opportunities for our community, WellnessRocket will launch a **staking program** 2–4 weeks after the **Phase 3 live launch**. This program is designed to reward participants while maintaining a strong token price.

### Key Details of the Staking Program:

- 1. Staking Token:**
  - Users will stake the **WRO tokens** to earn rewards.
  - Rewards will be paid in **WRO tokens**, encouraging participants to reinvest their earnings into the ecosystem rather than selling for other assets.
- 2. Incentivizing WRO Growth:**
  - While paying rewards in SOL is possible, offering **WRO rewards** ensures that users are more likely to reinvest in the token. This strategy supports our goal of maintaining a strong WRO price until the betting site is fully developed.
- 3. Duration and Timing:**
  - Staking will **start 2–4 weeks after Phase 3** and **end until all rewards are paid out**. This timeline aligns with our long-term plans to keep the token price as stable as possible.
  - Participants will be **informed at least 2 weeks in advance** before the staking program ends, ensuring transparency and preparation.
- 4. Reward Pool:**
  - A total of **25,200,000 WRO tokens** will be allocated as staking rewards.
  - Suppose the reward pool is depleted before the betting site launches, we will communicate further plans to the community, potentially adding financing to sustain a higher price point until the platform is fully operational.
- 5. Post-Staking Plans:**
  - After the staking program concludes, WellnessRocket will unveil a new set of strategies to maintain the token price, ensuring a seamless transition to the next phase of our ecosystem development.

These updates clarify the staking program and introduce thoughtful strategies to keep the **WRO token** price stable while encouraging reinvestment. By rewarding participants with **WRO tokens** and aligning incentives for long-term holding, we aim to support sustainable growth for the project.

# 9. Betting Site: Speed, Accessibility, and User-Centric Design

WellnessRocket is not just a token or a project; it's a **comprehensive sports betting platform** designed with users in mind. We aim to set a new standard in the betting industry by focusing on **speed, low fees, transparency, and customer satisfaction**.

## Key Features of the WellnessRocket Betting Platform

- 1. Unparalleled Speed**
  - Built on the **Solana blockchain**, our platform processes transactions at **up to 50,000 transactions per second (TPS)**.
  - Whether placing bets, withdrawing winnings, or depositing funds, users experience near-instant transaction times. This eliminates delays, ensuring you can focus on the excitement of the game.
- 2. Customer-Friendly Fee Structure**
  - With **zero fees for transactions up to \$100,000**, WellnessRocket offers one of the most cost-effective betting platforms in the industry.
  - Even for transactions exceeding \$100,000, fees are capped between **0.1% and 0.5%**, ensuring affordability for all users.
- 3. Extensive Betting Options**
  - Our platform boasts a **wide variety of betting markets**, covering all major sports, events, and niche categories to ensure users are never bored.
  - From high-stakes wagers to casual bets, there's something for every type of bettor.
- 4. Transparent and User-Friendly Design**
  - A simple and intuitive user interface ensures that even first-time users can easily navigate the platform.
  - All processes, from registration to withdrawals, are straightforward and transparent.
- 5. Community-Oriented Features**
  - Annual events like the **Christmas Lottery** and the **Lottery after phase 2** foster a sense of community and excitement among our users.
  - Our platform is designed to reward loyalty and active participation with bonuses and incentives.

**Vision: A New Standard in Betting**

At WellnessRocket, we aim to create a **betting platform that prioritizes the user experience**. By addressing the most common pain points in the industry—high fees, slow transaction speeds, and limited options—we aim to provide a platform that feels modern, reliable, and fair.

Our mission is to bring together the best aspects of blockchain technology and the sports betting world to create a platform that **users trust and enjoy**. WellnessRocket isn't just about betting—it's about building a community and a reputation for excellence.

### **Payouts for Betting Winners**

At **WellnessRocket**, ensuring smooth and reliable payouts for our users is a top priority. To demonstrate our commitment, we've allocated a dedicated **126,000,000 WRO token wallet** exclusively for payouts to betting winners. This wallet guarantees that we always have sufficient funds to honor payouts when the platform goes live.

#### **Key Details:**

1. **Dedicated Payout Reserve**
  - The 126,000,000 WRO tokens in the payout wallet are reserved specifically for this purpose, ensuring trust and reliability for our users.
2. **Responsible Use of Funds**
  - We are committed to using our own operational funds as much as possible to cover payouts until the platform generates sufficient income. This minimizes reliance on the payout wallet and reflects our dedication to sustainable growth.
3. **Transparency and Long-Term Vision**
  - If we reach a point where we have accumulated enough backup funds to sustain payouts independently, we plan to **reduce payout wallet use by at least 50%**. This action will further enhance the value of WRO for all holders and demonstrate our commitment to fair practices.

Our approach ensures that betting winners are paid promptly and securely while fostering trust and confidence in the platform. With this strategy, we aim to show not just promises, but actions that align with our users' trust and long-term success.

## **10. Low Fees and Fast Transactions**

One of the key advantages of the **WellnessRocket (WRO)** token is its integration with the **Solana network**. Known for its remarkable speed and efficiency, Solana offers substantial benefits for

our users in terms of **low fees** and **quick transaction times**. This setup allows users to enjoy a seamless and affordable experience when betting, depositing, and withdrawing funds.

### **Advantages of Using the Solana Network**

- **High Transaction Speeds:**

Solana is among the fastest blockchains in the industry, capable of processing up to **50,000 transactions per second (TPS)**. This speed ensures that WellnessRocket users experience **minimal delays** when moving funds in and out of their accounts. In an industry where timing is crucial, Solana's speed advantage provides a significant user experience improvement.

- **Low Transaction Fees:**

Transaction costs on Solana are remarkably low, making it feasible for WellnessRocket to implement a **no-fee policy for transactions up to \$100,000**. This means that users can place bets, deposit funds, and move their winnings without incurring additional charges, maximizing the value they get from their gameplay.

### **Zero Fees on the WellnessRocket Platform**

To prioritize user satisfaction, WellnessRocket has adopted a **zero-fee model for most transactions**:

1. **No-Fee Betting and Deposits**

- All **deposits on the platform are completely free**, regardless of the amount. This approach allows users to get started with minimal friction, making it easier to manage funds.
- For bets and transfers up to **\$100,000**, there are no fees, creating a cost-effective environment for users, whether they are casual players or frequent high-volume bettors.

2. **Minimal Withdrawal Fees for High-Value Transactions**

- For transactions exceeding **\$100,000**, WellnessRocket applies a small withdrawal fee ranging from **0.1% to 0.5%**, with a firm cap of 0.5%. This fee structure ensures that even high-value transactions remain affordable, preventing unexpected costs for users moving significant sums.
- We commit to **never exceeding a 0.5% fee**, even for the highest-value withdrawals, giving users confidence in predictable and fair pricing.

### **Enhanced User Convenience**

- **Fast, Reliable Transactions**

By building on Solana, WellnessRocket minimizes the time users spend waiting for transactions to be completed. This speed is especially beneficial for betting, where

users often need instant transactions to place time-sensitive bets or claim winnings promptly.

- **Transparent Fee Structure**

All fees are communicated upfront, with no hidden charges. Users know exactly what to expect when they deposit, bet, or withdraw, making WellnessRocket a transparent and user-friendly platform.

#### **Additional Benefits of Solana Integration**

- **Scalability:** Solana's infrastructure is designed to handle significant user traffic without slowing down. This scalability means that WellnessRocket can expand its user base without impacting the transaction experience, ensuring consistently fast and efficient processing even as demand grows.
- **Security:** Built on a secure blockchain, Solana protects user transactions against tampering, providing peace of mind for our users.

By leveraging the Solana network's low fees and high speeds, WellnessRocket is able to offer an affordable, efficient, and transparent betting experience. This low-fee structure encourages more active participation, allowing users to focus on the excitement of the game without worrying about transaction costs.

## 11. Marketing

### **Initial Marketing and Development**

Before Phase 2, we will conduct significant marketing and development activities funded

entirely through our own resources and Phase 1 proceeds. This phase will focus on building brand awareness, engaging potential users, and preparing our infrastructure for a successful launch.

### **Post-Phase 2 Marketing Initiatives**

Once Phase 2 concludes, we will implement a second, larger marketing push, funded by the proceeds from Phase 2. A strategic allocation of 5% of the total Phase 2 funds will be dedicated to marketing initiatives, ensuring that we continue to attract interest and drive user engagement. The majority of Phase 2 funds will be allocated to liquidity and a development fund, with the following strategies in place:

- **Targeted Advertising Campaigns:** Launching ads across multiple platforms (social media, search engines, etc.) to reach potential users.
- **Partnerships and Collaborations:** Establishing partnerships with key players in the industry to enhance visibility and credibility.
- **Incentive Programs:** Implementing referral programs and bonuses for early adopters to encourage user sign-ups and engagement.

### **Building the Betting Platform and Token Management**

Following these marketing phases, our focus will shift towards developing our betting site and implementing a robust token management strategy. We will prioritize the following actions:

- **Platform Development:** Expediting the build-out of the betting site to provide a seamless user experience and incorporate features that enhance engagement.
- **Token Buyback Strategy:** Actively buying back our WRO tokens from the market as much as possible. This approach is designed to stabilize the token price, as we will not be reselling the tokens we purchase. Instead, all bought-back tokens will be permanently removed from circulation through a burning process.
- **Token Burn Initiatives:** Conduct regular token burns to reduce supply, thereby supporting an increase in token value over time. Each burn event will be communicated transparently to the community to enhance trust and engagement.

This comprehensive marketing strategy, combined with our token management approach, will ensure sustainable growth and long-term value for our project and its participants.

## 12. Development

### **Development Fund Allocation**

A significant portion of our WRO tokens will be allocated to development efforts, specifically:

- **Locked Development Fund:** 126,000,000 of the total supply of WRO tokens will be designated as the development fund. This fund will be fully locked before we go live

to ensure that resources are secured and not misallocated during the initial phases of our project.

- **Lock-Up Period:** The development fund will remain locked for a period of **three months** following Phase 2. After this initial lock-up, **5%** of the development fund will be released monthly to facilitate ongoing development efforts while maintaining a controlled release mechanism.
- **Utilizing Phase 2 Funds for Development:** In addition to the locked tokens, we will allocate **15%** of the total Phase 2 funds for immediate development costs. This allocation will cover essential expenses such as programmer salaries and other critical development activities until the locked development wallet is accessible.

### **Multi-Network Expansion**

We plan to expand the availability of WRO tokens across different blockchain networks:

- **Cross-Chain Availability:** In the future, we will launch WRO tokens on both the **Binance Smart Chain (BNB)** and **Ethereum (ETH)** networks. This strategic move will enhance liquidity and broaden our user base.
- **Token Snapshot:** All existing holders of WRO tokens on the **Solana (SOL)** network will receive an equivalent amount of tokens on the BNB and ETH networks at the time of the snapshot. This ensures that our community members benefit from the expansion across different platforms.
- **Advance Notice:** We will provide our community with ample notice regarding the snapshot date and the subsequent launch on additional networks, allowing holders to prepare accordingly.

### **Community Engagement in Development**

We value our community's input and aim to involve them in the development process:

- **Phase 1 Participant Involvement:** Investors who join us through Phase 1 will have the unique opportunity to participate in the development process. They can contribute ideas, feedback, and suggestions, as well as test the site before its official launch. This collaborative approach fosters a sense of ownership among our early supporters and helps refine our platform.

### **Bonus Incentives for Token Holders**

To encourage long-term holding and engagement, we are introducing a bonus program for our investors:

- **Token Holding Bonus:** Every investor who holds at least **500,000 WRO tokens** until the opening of the betting site will receive an additional bonus. This holding requirement can be fulfilled through tokens acquired during Phase 1 and Phase 2, or through purchases made within **24 hours** from the time we go live on decentralized exchanges (DEX), such as **Birdeye** or **Radium**.

This structured development strategy, coupled with community involvement and incentive programs, ensures a robust foundation for our project and promotes sustainable growth within our ecosystem.

## 13. Tutorials

New to WellnessRocket? Watch our quick tutorial videos to learn how to:

### **Buying WRO tokens**

- Step-by-step instructions how to purchase WRO tokens during Phase 1 or Phase 2, including how to use CoinPayments for secure transactions.

## 14. Betting Site Currencies

Our betting platform will support a diverse range of cryptocurrencies to ensure flexibility and accessibility for all users. The following currencies will be available for transactions on the site:

1. **BTC (Bitcoin):** The original cryptocurrency, recognized globally, will be accepted on its native network for deposits and withdrawals.
2. **BTC (BEP20):** Bitcoin transactions will also be supported on the Binance Smart Chain, allowing for

faster transaction times and lower fees.

3. **SOL (Solana)**: Utilizes the fast and scalable Solana network, known for its low transaction fees and high throughput, making it ideal for quick betting transactions.
4. **BNB (Binance Coin)**: The native cryptocurrency of the Binance ecosystem, offering users lower fees on Binance and the Binance Smart Chain (BSC).
5. **ETH (ERC20)**: The leading smart contract platform, enabling a wide range of decentralized applications and is widely recognized in the crypto community.
6. **ETH (BEP20)**: The leading smart contract platform, enabling a wide range of decentralized applications and is widely recognized in the crypto community.
7. **POL (Polygon)**: A Layer 2 scaling solution for Ethereum that offers faster and cheaper transactions, enhancing user experience on the platform.
8. **BCH (Bitcoin Cash)**: A fork of Bitcoin designed to facilitate faster and cheaper transactions, making it popular for everyday use.
9. **FDUSD (ERC20)**: First Digital USD (FDUSD) is a stablecoin designed to maintain a 1:1 peg with the US dollar, providing a secure and reliable digital currency option for users
10. **FDUSD (BEP20)**: First Digital USD (FDUSD) is a stablecoin designed to maintain a 1:1 peg with the US dollar, providing a secure and reliable digital currency option for users
11. **USDC (BEP20)**: A stablecoin pegged to the US Dollar, providing stability and predictability for users when placing bets. This will be available in the BEP20 format on the Binance network.
12. **USDC (ERC20)**: A stablecoin pegged to the US Dollar, providing stability and predictability for users when placing bets. This will be available in the ERC20 format on the Ethereum network.
13. **USDC (SOLANA)**: A stablecoin pegged to the US Dollar, providing stability and predictability for users when placing bets. This will be available in the SOL format on the Solana network.
14. **USDT (TRC20)**: Another widely-used stablecoin that is pegged to the US Dollar, ensuring liquidity and stability in transactions. This will be available in the TRC20 format on the Tron network.
15. **USDT (ERC20)**: Another widely-used stablecoin that is pegged to the US Dollar, ensuring liquidity and stability in transactions. This will be available in the ERC20 format on the Ethereum network.
16. **USDT (BEP20)**: Another widely-used stablecoin that is pegged to the US Dollar, ensuring liquidity and stability in transactions. This will be available in the BEP20 format on the Binance network.
17. **USDT (SOLANA)**: Another widely-used stablecoin that is pegged to the US Dollar, ensuring liquidity and stability in transactions. This will be available in the SOL format on the solana network.
18. **TUSD (BEP20)**: Another widely-used stablecoin that is pegged to the US Dollar, ensuring liquidity and stability in transactions. This will be available in the BEP20 format on the Binance network.
19. **TUSD (TRC20)**: Another widely-used stablecoin that is pegged to the US Dollar, ensuring liquidity and stability in transactions. This will be available in the TRC20 format on the Tron network.
20. **TUSD (ERC20)**: Another widely-used stablecoin that is pegged to the US Dollar, ensuring liquidity and stability in transactions. This will be available in the ERC20 format on the Ethereum network.
21. **LTC (Litecoin)**: Known as the silver to Bitcoin's gold, Litecoin offers fast transaction times and strong community backing.
22. **DAI (ERC20)**: A decentralized stablecoin that aims to keep its value close to one US Dollar, giving

- users a secure option for betting.
23. **DAI (BEP20)**: A decentralized stablecoin that aims to keep its value close to one US Dollar, giving users a secure option for betting.
  24. **DASH (Dash)**: A cryptocurrency focused on speed and ease of use, making it suitable for everyday transactions and betting.
  25. **DOGE (Dogecoin)**: Originally created as a meme, Dogecoin has gained a significant following and is recognized for its low fees and fast transaction times.
  26. **RVN (Ravencoin)**: Ravencoin's focus on asset transfer and creation makes it a unique player in the blockchain space, catering to users looking to tokenize various forms of value.
  27. **ETH Classic (Ethereum Classic)**: The original Ethereum blockchain, supporting a wide array of decentralized applications.
  28. **QTUM (Qtum)**: Combines the security of Bitcoin with the smart contract functionality of Ethereum, making it a versatile option for users.
  29. **SHIBA INU(ERC20)**: A meme-based cryptocurrency that has garnered a loyal community and is recognized for its charitable initiatives.
  30. **SHIBA INU(BEP20)**: A meme-based cryptocurrency that has garnered a loyal community and is recognized for its charitable initiatives.
  31. **TRON**: Known for its high throughput and focus on content sharing, TRON offers a unique ecosystem for developers and users alike.
  32. **FIRO**: Firo is a cryptocurrency that emphasizes privacy and security in digital transactions
  33. **DGB (DigiByte)**: Known for its fast transaction speeds and secure blockchain, DigiByte will provide users with another flexible payment option.
  34. **MONERO (XMR)**: Monero stands out in the cryptocurrency space due to its strong emphasis on privacy, decentralization, and active development, making it a compelling choice for those seeking a secure and anonymous way to transact.
  35. **LINK (ChainLink BEP20)**: Chainlink plays a crucial role in the blockchain ecosystem by providing reliable data feeds, which are essential for the functioning of smart contracts.
  36. **LINK (ChainLink ERC20)**: Chainlink plays a crucial role in the blockchain ecosystem by providing reliable data feeds, which are essential for the functioning of smart contracts.
  37. **Future Additions**: We are committed to expanding our offerings and will continuously evaluate and add more currencies based on user demand and market trends.

This wide range of accepted currencies ensures that our betting platform caters to a diverse audience, providing users with the flexibility to bet using their preferred cryptocurrencies while fostering an inclusive environment for all.

## 15. More information

We are committed to maintaining transparency and open communication with our community. If you have any questions or need further clarification about our project, we encourage you to reach out to us through our official Telegram channel:

- **Telegram Community:** Join us on Telegram <https://t.me/WellnessRocketOfficial> to connect with our team and other community members. Our Telegram chat is the best place to ask questions, share feedback, and engage in discussions related to the

project.

- **Weekly Live Chats:** We hold live chats every week on our Telegram channel, where our team provides updates, discusses upcoming features, and answers questions in real-time. This is a great opportunity for community members to gain insights into our progress and future plans.

### **Token Purchase Information**

Our token can be purchased from Phase 1 and Phase 2 using CoinPayments, ensuring a seamless transaction experience for our users. For detailed information on how to buy our tokens, please visit our website:

- **Token Purchase Page:** <https://wrocket.info/buytoken>

This page provides step-by-step instructions on how to acquire our tokens and includes information on accepted payment methods.

### **Security Standards**

We prioritize the security of our platform and the assets of our users. As part of our commitment to best practices in security management, we adhere to internationally recognized standards:

- **ISO/IEC 27001:2013:** This standard outlines the requirements for establishing, implementing, maintaining, and continually improving an information security management system (ISMS). More information can be found at the [https://en.wikipedia.org/wiki/ISO/IEC\\_27001:2013](https://en.wikipedia.org/wiki/ISO/IEC_27001:2013).
- **Cryptographic Security Standards:** We also follow the guidelines set forth by the Crypto Consortium's Cryptocurrency Security Standards (CCSS), which provide a framework for the secure management of digital assets. Further details can be accessed at the <https://cryptoconsortium.org/standards/CCSS>.

We encourage all community members to stay engaged, ask questions, and provide feedback as we continue to develop and enhance our project. Your involvement is crucial to our success, and we look forward to building a vibrant and dynamic community around Wellness Rocket.
